Circular No. 28/2025

Introduction of a Binding Digital Process for the Registration of Guest Researchers

Dear Members of the University,

Expanding the University of Bonn's research and teaching network lies at the heart of its strategy and success. We are therefore delighted to be able to welcome so many guest researchers from Germany and around the world to our University every year. Following invitations from University of Bonn researchers, guest researchers come and spend time carrying out research at our institution. While they have no formal connection to the University, guest researchers gain access to resources such as data, laboratories and equipment that are usually only available to University of Bonn staff.

Different regulations apply to guest researchers than to members of the University in terms of accident and health insurance. It is therefore important to draw up written agreements regarding their time at the University of Bonn, not least for occupational health and safety reasons.

Relevant information was already shared in [Circular No. 31/2023](#) "Occupational Health and Safety for Visitors." Since then, existing processes around the registration of guest researchers have been optimized and digitalized.

If you would like to invite guest researchers, as of now, please register them as early as possible for their scheduled stay solely by completing [this form](#). Registrations trigger an internal review process that usually results in guest researchers being issued a contractual agreement, a hosting agreement for visa application purposes, a Uni-ID and a Guest Researcher Card. By adhering to this workflow, we help guest researchers get off to a smooth start to their research stay at the University.

Bank account of the

IBAN: DE08370501980000057695

VAT no.:
DE 122 119 125

You will find further information on the [Service Portal](#):

- [Form for registering guest researchers](#)
- [Definition](#) of guest researchers of the University of Bonn
- [Timeline](#) from invitation to Uni-ID

In August and October 2025, we are organizing info sessions aimed at faculty staff responsible for registering guest researchers. Please check [here](#) for the relevant dates.

For any questions regarding registration matters, please get in touch with Jessica Greis-Mills and Lea Eversmann (Section 6.1 / Welcome Center for International Researchers): welcome@uni-bonn.de (0228 73-4040, -7831).

Please note that the University Hospital administration has put in place a separate process for guest researchers of the Faculty of Medicine.

Sincerely,

signed Professor Dr. Dr. h.c. Michael Hoch
