Bonn, September 29, 2025

To all
administrative staff
at the University of Bonn
- excluding University Hospital Bonn (UKB) -

Circular No. 30/2025

Closure times of Central Administration and regulations applicable to working time between Christmas and the end of 2025/start of 2026

Dear Sir or Madam, dear colleagues,

This circular informs you about the regulations applicable to working time at the University of Bonn's Central Administration between Christmas and the end of 2025/start of 2026.

Central Administration will remain closed between December 24, 2025 and January 1, 2026 inclusive.

As announced in Circular No. 26/1996, December 24 and December 31 count as days off.

Administrative staff are free to decide whether to take flextime or holidays on December 29 and 30, 2025. Staff who do not have sufficient holidays or flextime left for the year can go into overdraft with their flextime accounts as necessary. The overdraft limit of 20 hours as per Civil Service Staff Council Agreement on Flexible Working Time in Central Administration at the University of Bonn can be exceeded accordingly.

The former Deutscher Herold building (Poppelsdorfer Allee 31–33), the University Main Building and the AVZ III (Römerstraße 164) will be closed on those days. Any keys that are required during this period can be obtained from Section 4.1—Infrastructure and Facility Services (Dieter Roßbach, phone: +49 228 73-7656 and Andre Mohr, phone: +49 228 73-4825). The remaining buildings will not be serviced by the janitors either apart from those required for the winter road/path clearance and on-call services.

The winter road/path clearance and on-call services will continue to be provided during this period.

Section 4.3—Technical Services will be on call around the clock for technical emergencies between 3:30 pm on December 23, 2025 and 8 am on January 2, 2026. You can call them on +49 228 73-1111.

To prevent danger and to maintain University operations, Section 4.1—Infrastructure and Facility Services has been running an emergency number since February 1, 2021. Please call this emergency number in case of imminent danger on University premises and in buildings for the following areas:

- Chemical waste
- Safety and surveillance
- Liability for premises

The emergency number is as follows: +49 228 73-5541.

Sincerely,

signed

Holger Gottschalk
